OBJECTIVE

My immediate goal is to train and prepare for Supercross in 2010. My experiences this year have been very valuable and I now have the tools I need to be competitive

PERSONAL

I'm nineteen years old and was born in Las Vegas. My Dad Mike, my Step-Mom Jackie, my brother Mason and my sister Rachel are all very supportive of my racing career. I spend my time riding, training and working on bikes. I do my own mechanic work from the crank up. I train fanatically and take care of my body. I am determined to make a career out of racing so I stay healthy.

EXPERIENCE

I started racing when I was ten. I rode 65 and 85's for about two years. I've been riding Honda 250's and 450's 2004. I recently moved to Apple Valley CA so I ride much more now then when we lived in Vegas. I raced the entire outdoor series and made it into most of the races. I traveled in my box van with Derek Rogers my mechanic. Although we had lots of bad luck, but we made it back in one piece and I gained a huge amount of valuable experience. I'm now a better rider and stronger mentally than I ever have been.
